# Can we lend to your client?

This document gives you all the information you need to see whether we have the right loan for your client.

We assess all the applications individually.

Sometimes we ask for more info so we can finalise our underwriting decision.

- We only lend through registered Intermediaries
- Loan requests from borrowers must be submitted through you – a registered Digital Mortgages intermediary
- We offer loans from £100,000 and up to £5 million.

Just to let you know, if your client applies for a loan that's greater than £1 million, our standard approach is for our Business Development Managers to visit the business and the property we're lending against.

# Credit status

## Credit searches

We do credit searches on loan applications before our underwriters assess the loan request. The searches will be on the key individuals, and the business itself.

The credit searches will be on all the UK addresses that each applicant has lived in for the last three years.

We might also search undisclosed and linked addresses over the past three years.

All the credit searches we do are valid for three months. After that we'll do new searches. If any further relevant information appears in that search, the application will be reassessed and we might change the product we offer or decline the application.

If the application is from a limited company, LLP or PLC, we'll do a company search and we'll also search any other directorships of all the directors and main shareholders.

If the application is from a group of companies (including Special Purpose Vehicles or 'SPVs') we'll complete credit searches on all directors and shareholders of the business, including any parent company and any corporate shareholders. Our underwriters might run searches on any associated companies and may also request consent to search against connected individuals to make sure we know the identity of all business owners.

# Insolvency proceedings and CCJs

We are prepared to consider applicants with single, isolated and minor instances of adverse credit history, and where the likelihood of recurrence is assessed as low.

## What happens if my client has current, or previous, insolvency action?

We'll only go ahead with the loan if there has been no insolvency action in the last three years for any of the following:

- The borrowing company, parent or subsidiaries
- Companies connected by way of company ownership
- Companies with common directorships
- Significant shareholders
- The original company in phoenix situations whereby a business has been dissolved and replaced by a new company

Where there has been any insolvency action in the last five years, we'll only go ahead with the loan where HMRC or any financial institution did not lose any money as a result of the action.

## What happens if my client has a County Court Judgement (CCJ)

We treat business CCJs the same way as personal CCJs.

We will allow:

- Up to three credit related CCJs of less than £500 in the last three years
- One CCJ of more than £500 in the last three years

Affordability	Commercial Investment	Commercial Owner Occupied	Residential Investment
<b>Serviceability</b>	<p>Serviceability will be assessed on case-by-case basis. We want to make sure that applicants have a sufficient proportion of their profits available, after taking account of finance repayments, to cover other business and personal commitments.
